The high-quality, hands-free handset for exclusive professional demands.The Gigaset S79H is the elegant cordless handset with top-of-the-range features. It’s perfect for those wanting state-of-the-art technology and those with professional needs. From the high-quality materials and galvanised keys, to the large TFT colour display with modern user interface, this handset looks exquisite. As well as great style, it offers optimum functionality, with excellent hands-free, mini-USB, a 2.5mm headset jack, plus easy volume control side keys. Store up to 500 vCards with ease: transfer your contacts via the mini-USB and Gigaset QuickSync Software for data synchronisation. When it comes to keeping your finger on the pulse, the Gigaset S79H has all the features you need – speed dialling for 9 numbers, a list of the last 20 missed calls and a calendar and event schedule with alarm.Ideal for home office professionals or anyone who desires outstanding design and technology, the Gigaset S79H is a simply stunning choice.Excellent hands-free.If you’re looking for unsurpassable hands-free for chatting to friends or for the home office, the Gigaset S79H is the handset for you. It’s perfect for busy moments when you need to carry on working on the computer while having a conference call in brilliant clarity, or for when you just want to lie back, relax and chat to friends in supreme comfort. Also equipped with a standard 2.5mm headset jack, you have the flexibility to speak in whichever way suits you best. Professional users in particular will enjoy the convenience of the volume control side keys. It’s easy to turn down the volume on conversations with loud colleagues or to turn it up and catch every single detail without fuss on important calls. And with brilliant High Sound Performance TM on the Gigaset S79H, calls will sound perfectly clear whatever the volume, even on hands-free.In touch.The Gigaset S79H has all the features you need to network with ease. Transfer contacts via the handy mini-USB and Gigaset QuickSync Software for data synchronisation. The Gigaset S79H has the capacity to store up to 500 vCard entries.

Siemens Gigaset S79H DECT Handset

Furthermore, you can always check when someone has tried to contact you thanks to a 20 entries incoming list and a list of the 20 missed calls with time and date. There is also a 20 entries outgoing list. For the numbers you use most, 9 short cut keys can be programmed to speed dial. And with a calendar and event schedule with alarm, the Gigaset S79H can even help manage your professional and social life.Looks great.With its sleek frame, the Gigaset S79H simply looks exclusive. Even the high-quality keypad has galvanised metal caps, giving it unmistakable Gigaset class. Thanks to a large screen with TFT colour display , you can enjoy a purely modern user interface. Precision and exclusive materials mean the Gigaset S79H is at the forefront of elegance – an impressive detail in any environment where style matters.ECO DECT technology.Like all Gigaset cordless handsets, the Gigaset S79H variably reduces its transmitting power to the base station depending on their distance apart. You can also reduce the transmitting power of the base station by 80%¹ by selecting the ECO Mode. Furthermore, the radiation-free² ECO Mode Plus slashes the transmitting power by 100% when this handset is in standby. Stay connected, the ECO way, with the Gigaset S79H.With its excellent hands-free, mini-USB, TFT colour display and high-end materials, the Gigaset S79H is as stylish as it is functional. Fulfilling your professional requirements is a breeze for this first-class handset.
