Manufacturer: -
Model Number: VIP-418-IC

Availability: In stock
Valcom VIP-418-IC IP Speaker
The Valcom VIP-418-IC IP Speaker is a white 8in x 8in square IP speaker wall assembly. This model is meant for use with InformaCast IP Paging software systems. The VIP-418 One-Way IP Wall Speaker enables voice access to a single zone of one-way paging over an IP-based LAN/WAN. This allows a page zone extension anywhere on the network. The speaker level is electrically adjusted during set up. The enclosure is made of steel with a durable white, paintable finish. The color of the enclosure can easily be changed to match any decor. The speaker requires an 802.3af PoE compliant network connection. Power is provided to the VIP-418 via a Power over an Ethernet switch meeting the 802.3af specification. The Valcom VIP-908 Ethernet switch is ideal for this purpose and will power up to 7 VIP- 800 series devices.
