Valcom VIP-429-D-IC Wall Speaker
The Valcom VIP-429-D-IC Wall Speaker is an all white flush mount IP Wall speaker faceplate unit with an integrated digital clock. It is meant for use with InformaCast IP Paging software systems. This model also offers two-way communication, or TalkBack mode. The VIP-429-D IP Talkback Wall Speaker with Digital Clock enables two-way handsfree voice access to a single location over an IP-based network. This allows a page zone extension anywhere on the network. The speaker audio level is electronically adjusted via software. Clock synchronization is acquired from a Network Time Protocol (NTP) server, either a private internal server or from the Internet. A call switch input is provided for call initiation. The enclosure is made of steel with a durable white finish.The color of the enclosure can easily be changed to match any decor. Power is provided to the VIP-429-D via a Power over Ethernet (PoE) switch meeting the 802.3af specification.
