Akuvox SIP Video Door Phone

— Smart Guard

Akuvox SIP Video Door Phone ——Smart Guard

The security that comes with being able to control who comes into your building along with the ability to verbally and visually confirm their identity is immeasurable. Akuvox' s smart IP Video Doorphone SDP-R29 enables you to easily monitor an entrance door or gate and gives you the peace of mind knowing that your facility is more secure.

Install it by entrance

You can install it by the villa's entrance or apartment's entrance. Easily to experience the modern life.

Convenient to Answer the Door

Talk to your visitor from anywhere!

SDP-R29 provides users with the opportunity to answer their door and speak to the visitor from virtually anywhere by use of their smart phone, VoIP phone or tablet.

Akuvox

Real time watching

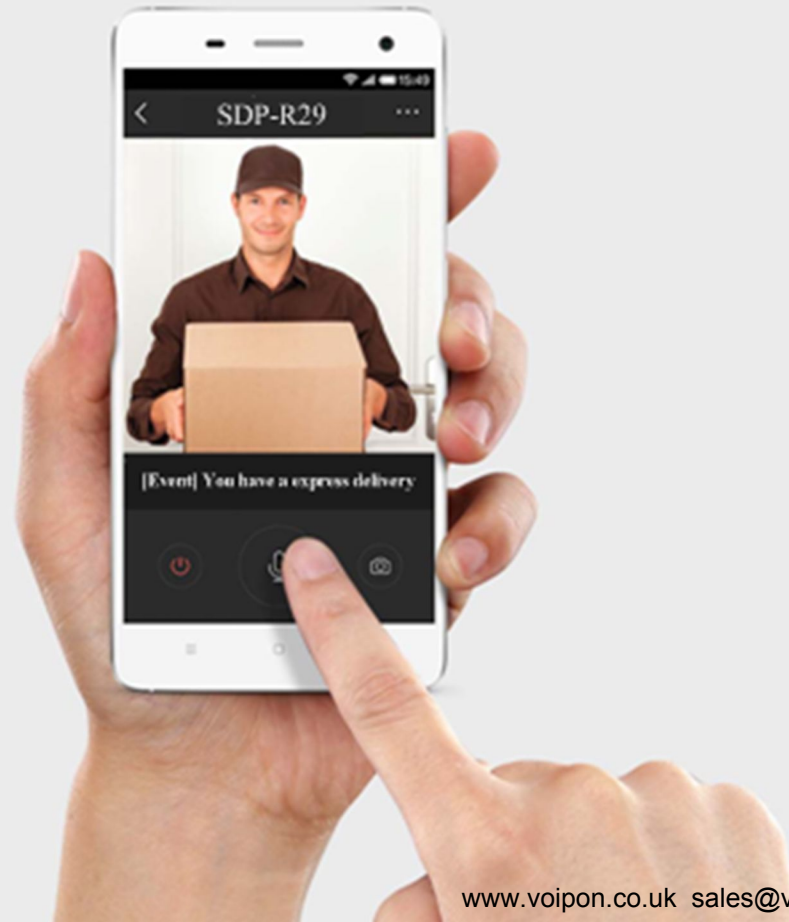

You can watch your child in the yard by your device anytime

Even you are busy in the kitchen, you can also watch the kids, know where are they and what they are doing, you no need to be there.

Real Time Notifications

Never miss a visitor again!

SDP-R29 can notify you in real time via Push Notifications that include a timestamp, picture, and the visitor's voice message.

Akuvox

Security Guard

Akuvox

Help to prevent from crime!

SDP-R29 can be triggered via Motion Detection. Whereby the presence of a motion will prompt it to take a photo and make deliver a notification. So in case there is someone at the door for wrong reasons, SDP-R29 will take a photo and deliver it to you.

Warning system for damage

G-sensor inside

There is a G-sensor in this smart doorbell, when someone try to break or dismount this doorbell, the G-sensor will notice the abnormal shake, the doorbell will capture the photo and send the alarm to your phone.
