

# Foncordiax Mini

Foncordiax is a complete turn key, plug and play IP PBX system.

Systems have been designed to be quick to install, easy to configure and maintain and are based on solid, reliable and eco friendly components.

All systems are pre-installed with the latest Foncordiax software, and configuration to individual client requirements is done via a web interface either internally or via remote access.

All Foncordiax systems are supplied with a rich array of features as standard ensuring that any corporate expansion is just a simple matter of activating required feature sets.
