

Polycom® CX100 Speakerphone

For Microsoft® Office Communicator 2007

Benefits

Integrated with Microsoft Office Communicator 2007 – Optimized to deliver a seamless unified communications experience

Natural, hands-free conversations – High-definition wideband audio for the best possible clarity during voice and video calls

Excellent coverage – High fidelity speaker and two high-quality stereo microphones with 360 degree pickup ensure every word is heard clearly

True USB plug-and-play – No drivers to install

User friendly – Convenient buttons integrated with Microsoft Office Communicator 2007 allow you to control calls

Ultimate Portability – Carrying case and integrated USB cable that stores inside the unit for portability and convenience

OPTIMIZED FOR
Microsoft®
Office Communicator

The ultimate hands-free calling experience for Microsoft Office Communicator 2007 users

Now you can have crystal-clear, natural, hands-free conversations without echoes or feedback. Whether for small group conferences or for personal hands-free use without the confines of a headset, the Polycom CX100 speakerphone delivers superior audio performance and application integration.

The remarkable high-definition audio quality of the Polycom CX100 speakerphone enables seamless voice and video communications with no compromises. Its two high-quality microphones offer excellent range for small group conversations.

The speakerphone connects and powers through an integrated USB cable for easy installation and use – there are no extra cables to carry or batteries to charge. Its small footprint and carrying case make it easy to take with you. Plus, the high-fidelity speaker doubles as a great portable solution for CD-quality music and presentation audio. For private calls, just plug a set of stereo headphones into the headphone jack.

The integrated button controls make it convenient to hang up calls, adjust speaker volume up and down, and mute the microphones during a call without using your mouse. The LED indicators display various call states like incoming call, call muted, active call and voicemail waiting for user.

Don't settle for imitators – only the Polycom CX100 speakerphone delivers a business-class hands-free computer calling experience.

Integrated with Microsoft Office Communicator 2007, the Polycom CX100 speakerphone is compatible with Windows® XP and Windows Vista®.

Make Great Things Happen with the Polycom CX100 Speakerphone

In today's Internet driven world, the ability to conduct real time communication and collaboration has become critical to an organization's survival. As the market leader in voice, video, data and Web solutions, our award-winning conference technology makes it easy for people to interact and maximize productivity — over any network, in just about any environment, anywhere around the globe. That's why more organizations worldwide use and prefer Polycom conferencing solutions. Because when people work together, great things happen. See how you too, can achieve great things with the Polycom CX100 speakerphone.

** Audio performance may vary based on PC specifications.*

 **POLYCOM®**
