Availability: In stock

Valcom VIP-428-IC Features:

Valcom VIP-428-IC Wall Speaker The Valcom VIP-428-IC Wall Speaker is a flush mount white wall assembly with an 8in IP speaker. It features 2 way communications. This model is meant to be used with InformaCast IP Paging software. The VIP-428 Talkback IP Wall Speaker enables handsfree talkback access to a single location over an IP-based LAN/WAN. This allows a handsfree talkback extension anywhere on the network. The speaker levels are electrically adjusted during setup. The enclosure is made of steel with a durable white, paintable finish. The color of the enclosure can easily be changed to match any decor. A call switch input is provided for the remote speaker location signaling. The speaker requires an 802.3af PoE compliant network connection. Power is provided to the VIP-428 via a Power over an Ethernet switch meeting the 802.3af specification. The Valcom VIP-908 Ethernet switch is ideal for this purpose and will power up to 7 VIP- 800 series devices.

� Two-Way Communication
� PoE (802.3af) - No Local Power Required
