- Ideal for single user

The Voipon Hosted PBX Solo is priced at £4.95 exc. VAT per month. An initial payment of £4.95 exc. VAT will be required by Credit or Debit Card, followed by monthly payments of £4.95 exc. VAT.

An initial payment will be required when you purchase, by Credit or Debit card, followed by monthly payments which will be payable via Direct Debit.

User-friendly web portal

The modern and intuitive web portal allows for every component of the Hosted VoIP solution can be controlled by the user. The web portal can be accessed via Internet browser from any location in the world, meaning users do not have to be in the office to change how calls are routed.

Call Waiting

The Call Waiting feature alerts users if another caller is trying to get hold of them while they are on the line. The system will present a beep via handset and the IP phone will display information on the waiting call.

Call Forwarding

The Call Forward feature allows users to automatically forward either all or selected calls to any internal extension or external destination including mobiles and public phone numbers.

Multiple devices can be alerted at the same time meaning the system can be configured to ring a mobile phone, desk phone and soft phone simultaneously. This feature can be controlled from any Internet connected device at the click of a button.

Voicemail

The flexible voicemail feature can be configured to answer calls on the user's behalf and take messages from callers. The feature can be configured to automatically send any messages to email and can also be accessed from any extension or through the web portal in any location worldwide. Emailed messages can be reviewed on most smartphones without needing to place a call.

DND - Do Not Disturb

Once enabled from the phone terminal, the DND feature enables users to enjoy full privacy if they

Voipon Hosted IP PBX Solo - Cloud based PBX

need to get a task completed.
