2N IP Verso Touch Keypad Module (9155047)

Product Name: 2N IP Verso Touch Keypad Module (9155047)
Manufacturer: 2N Telecommunications
Model Number: 9155047

Please Note: All 2N products come with a 3 year warranty as standard however, this can be extended up to 5 years. Customers have the option to extend their warranty by either one or two years. To find out more, please click here or call our sales team on 0330 088 0195.

2N IP Verso Touch Keypad Module (9155047)
The 2N IP Verso Touch Keypad Module (9155047) is another addition to the 2N expansion modules. The PIN code can be either similar for several users, or unique for each of them. The Touch Keypad module is suitable for outdoor and indoor installation, and is also compatible with the 2N Helios IP Verso and the 2N Access Unit.
2N Touch Keypad Module Key Features

ï¿½ Adjustable intensity of brightness
ï¿½ Numeric option for calling
ï¿½ Silent alarm activation

This module is equipped with a capacitive touchscreen that registers every touch. Each press of the keypad and every evaluation of the entered PIN code (acceptance or rejection) is signalled visually. Thanks to the adjustable back-lighting, visibility of the keypad is guaranteed even at night or in places with minimum lighting.
