

VoIP Outdoor Intercom

CyberData

The IP Endpoint Company

Newly designed with a faster processor allowing for more capabilities, and increased IP rating for weather protection, the CyberData SIP-enabled VoIP Outdoor Intercom is perfect for settings requiring two-way communication and secure access. The new Weather Shroud (pictured) can be purchased separately for even greater weather protection.

The redesigned case is more secure and has a more streamlined look with increased tamper resistance. One of our most popular devices, the Outdoor Intercom has been installed in nursing care facilities, schools and universities, daycare facilities, retail establishments, highway tolls, and more, proving this device is truly a versatile, cost-efficient alternative to old analog intercoms.

New Features include:

- Faster processor
- Increased IP RATING to IP65
- Now supports SRST (Survivable Remote Site Telephony)
- New streamlined case design
- Optional Weather Shroud (pictured) for even greater weather protection

Features

- PoE 802.3af enabled (Powered-over-Ethernet)
- SIP compliant
- Adaptive full-duplex voice operation
- Network web management
- Network adjustable speaker volume and microphone sensitivity
- Network downloadable firmware
- Doubles as a paging speaker
- Dry relay contact for auxiliary control (controls external power)
- Peer-to-peer capable
- Door closure and tamper alert signal
