

## Easy DECT, Easy Business

The next generation Yealink DECT Phone W52P is a SIP Cordless Phone System designed specifically for small businesses and SOHO operations in the market for cost-saving, scalable SIP-based mobile communication systems. The epitome of everything we've learned over the past decade about designing extremely powerful yet delicate business IP phones, W52P carries forward Yealink's eternal pursuit of cutting-edge VoIP technology, featuring supreme quality under the strictest testing and the highest level of operation simplicity. Yealink W52P won't just fulfill all your cordless phone needs, it'll make every-day calling an outright pleasant, engaging experience.

HD

## HD Voice

The DECT Phone - W52P is equipped with a full duplex speakerphone in G.722 bandwidth, meeting the highest professional HD Voice standards and meant to impress with its original and brilliant broadband voice.

## PoE

The DECT Phone - W52P is integrated with PoE technology, pushing forward modern standards of installation and allowing any sized organization to enjoy more flexible and efficient network designs, while providing environmental protection and low-carbon emission.

*Maximize coverage*

*Easy deployment*

## Broadest Compatibility

The DECT Phone - W52P has inherited all the functions and interoperability of its predecessor- the SIP-T2X, lauded by All-Over-IP Forum as the best all-around series of IP phone-ensuring you additional best-in-class capabilities without compromising its existing infrastructure
