Polycom® CX IP Phones

Coming in Q4 2010

Optimized for Microsoft Communications Server "14"

Polycom has added three new IP-based phones to its industry-leading portfolio of UC devices optimized for use with Microsoft® Communications Server "14." These devices combine Polycom® HD Voice™ technology with the advanced presence-enabled telephony capabilities of Communications Server "14" to deliver new levels of productivity in lobbies, on desks, and in conference rooms. The new phones seamlessly integrate with Communications Server "14" to deliver the full Microsoft UC experience and are easy to deploy, use, and manage.

HDvoice

Polycom CX600 IP Phone

Helps office and cubicle workers maximize productivity with a full-featured UC desktop telephone

Large color display for easy access to call, directory, and presence information

Polycom HD Voice™ technology in the handset, headset, and speakerphone for stunning voice quality and clarity
