Highlights

- HDSP ready handset^{1 2}
- SMS¹ with up to 160 characters
- Long talk time up to 25 hours
- ECO DECT for up to 60% less energy consumption^{3 *}

The handset for long calls and easy text messaging The Gigaset A58H lets you stay in touch with family and friends in the most comfortable way. With a long talk time of up to 25 hours and a standby time of up to 210 hours, you can chat on and on. The innovative High Sound Performance™ provides a brilliant sound quality makes your calls a pure experience, even when talking hands-free. The handset is HDSP™ ready^{1 2} – for an even better speech quality when talking to your contacts via a broadband connection. And if you simply want to leave a short note, send an SMS² with up to 160 characters. This elegant handset with its streamlined shape in Piano Black can be added as an additional handset to a base station. And the Gigaset A58H also helps to protect the environment with its innovative ECO DECT technology*. If you're looking for an elegant way of staying in touch and sending text messages, the Gigaset A58H is the right handset for you. Brilliant sound with the HDSP™ ready¹ handset Enjoy phoning in twice the sound quality of a normal phone call. The Gigaset A58H is an HDSP™ ready¹ handset that supports High Definition Sound Performance™. That means you can call anyone else who has a phone that supports HDSP™ via your broadband connection – and hear every inflection in the other person's voice when they speak. This way you experience calls that sound more like face-to-face

conversations. Long talk time for extended calls The Gigaset A58H lets you stay in touch for hours and hours. Benefit from a long talk time of up to 25 hours. With a standby time of up to 210 hours, the Gigaset A58H is a reliable handset if you value being available for all those who are important to you. The simplest way to communicate: SMS² text messaging If you want to send a few nice words out to family or friends, just use the SMS² function of the Gigaset A58H. Use up to 160 characters and benefit from the illuminated black and white display and keypad, for easy typing in any light condition. Keep track of all details with the phonebook The Gigaset A58H features a phonebook where you can store up to 150 entries, so you have all the space you need for the contact details of your family and friends. And if one of them is trying to reach you, you instantly know who it is thanks to the display of the callers' number with CLIP². The energy-efficient way of staying in touch: ECO DECT With the innovative ECO DECT technology, the Gigaset A58H uses up to 60% less energy than our conventional cordless phones thanks to an energy-saving power supply. It helps you save money and is better for the environment. Like all Gigaset cordless phones, it also variably reduces transmitting power from the handset to base station according to their distance apart. Choosing ECO Mode on this model allows you to reduce the base station's transmitting power by 80%^{**}. When docked^{***}, both handset and base station reduce the transmission power to almost zero. This way, you benefit from the Gigaset A58H's more energy-efficient way of staying in touch. The elegant handset for pure conversation: The Gigaset A58H is the right choice if you enjoy long phone calls and easy text messaging. ¹ Supports High Definition Sound Performance™ via a
