Spectralink 7622 and 7642

Unique Wireless Solution for Manufacturing and Personal Safety

The Spectralink 7622 and 7642 are ruggedised and durable in harsh conditions – no matter if they are humid, dusty, or dirty. The handsets combine maximum functionality, ease of use, and elegance with a durable design. And, the handsets are designed to meet the needs of a mobile workforce in industrial and manufacturing environments.

The robust design of the IP 64-compliant handsets ensures that they are resistant to dirt, dust, and splashing water. The handsets come with a complete set of specialised features prepared for third-party applications, which can be tailored to meet any organisations individual needs.

The Spectralink 7622 and 7642 offers a range of safety features.The integrated alarm button and specially designed colour-coded alarm icons ensure immediate reaction in critical situations. The high-quality TFT colour display provides a clear view from all angles.

To improve communication in noisy environments, the handsets have a headset jack with amplifier for industrial headsets and a vibrator option, which make the handsets ideal for environments where a ringtone may not be enough to detect incoming calls and messages.

The Spectralink 7622 and 7642 are certified and tested with PBX market leaders.

Spectralink 7622 Handset

The Spectralink 7622 handset is highly durable, designed specifically for manufacturing environments, and comes with a range of features such as an alarm button, colour display, and manufacturing-specific alarm icons.

Spectralink 7642 Handset

The Spectralink 7642 handset extends the capabilities of the Spectralink 7622 handset. Automatic alarms such as man down, no movement, and running detection ensure maximum safety. Lone workers and people at risk can immediately get help as automatic alarms, triggered by the handset's motion detectors or tear-off string.
