

Snom A330M Mono Headset Wired Head-band USB Type-A Black

Product Name: Snom A330M Mono Headset Wired Head-band USB Type-A Black
 Manufacturer: Snom
 Model Number: A330M

Snom A330M Mono Headset Wired Head-band USB Type-A Black

The first fully functional monoaural over-ear headset from Snom (Snom A330M) has speakers with full-band audio and a microphone with passive background noise suppression. This means that from now on you can "concentrate fully on the conversation". Because ambient noise is reliably suppressed. The headset can be used via a 3.5 jack plug as well as connected to a Snom IP desk phone or computer via USB. Thus, it can not only be used for telephoning, but it also works with the currently popular communication software platforms.

Snom A330M Key Features:

- Monoaural
- Full band audio
- Remote control with LED display and 5 buttons
- 3.5mm jack & USB plug
- Works with popular communication software platforms

The (Snom A330M) replaceable ear pad is made of soft imitation leather with memory foam filling. This means it can be used all day without causing unpleasant pressure points. For long-lasting comfort, the adjustable headband is also padded and is 35 mm long.
