Yealink BH71 Workstation Bluetooth Headset
The Yealink BH71 Workstation is a Bluetooth headset system designed for hybrid workers who require flexibility and mobility. The system includes the BH71 Headset and WorkStation. Weighing only 18 g, the monaural earhook headset provides exceptional audio quality and all-day comfort. It features a 4-microphone beamforming array that delivers excellent voice isolation and noise cancellation. With a single charge, the lightweight headset provides up to 10 hours of talk time. The headset can be worn on either side of the head, and it can be used with mobile devices via Bluetooth or with computers using the included dongle.
The UC workstation takes office communication solutions to the next level. The station enables simultaneous connections to multiple devices, such as smartphones, desk phones, and computers. With its touchscreen display, switching between devices is effortless, and managing the headset is as easy as tapping the screen. The workstation also serves as a speakerphone, adding to its convenience.
