

Snom M55 Dect Phone

Product Name: Snom M55 Dect Phone

Manufacturer: Snom

Model Number: M55

Snom M55 Dect Phone

The Snom M55 impresses with its robust design and haptics. The large 2.4" color display provides a clear, concise view of the intuitive user interface. All settings can be made centrally via the M500 base station using zero-touch provisioning, and software updates are carried out over-the-air. In addition to proven system features such as line monitoring, call pickup, hold/retrieve, broadcast, and intercom groups can be programmed on the 6 LED function keys.

Snom M55 Dect Phone Key Features:

- Wireless software updates for handsets (OTA)

- Large 2.4" color display

- 6 programmable LED function keys

- Belt clip

The powerful 1500 mAh battery allows up to 12 hours of talk time in HD audio quality. Bluetooth headsets are supported in addition to wired headsets, offering users the flexibility to choose their preferred method for hands-free communication. With its impressive features and versatile options, the Snom M55 is the perfect communication tool for businesses seeking scalability and efficiency in their SME environment.
