

Snom UK/EU 5V/10W Power Supply

Product Name: Snom UK/EU 5V/10W Power Supply

Manufacturer: Snom

Model Number: 10W PSU EU/UK

Snom UK/EU 5V/10W Power Supply

Snom desk phones are initially powered through PoE as the default setting. This decision aligns with ecological and economic considerations, leading to the exclusion of a power supply unit from the package. Nonetheless, if your network setup doesn't utilize PoE, you have the option to obtain a separate power supply. Additionally, if you wish to connect multiple extension modules to a single telephone, starting from the second extension module, you will require this power supply.

Snom UK/EU 5V/10W Power Supply Key Features:

- ½ Input voltage/Input current 100 - 240V AC, 0.3A
- ½ Type approval CE mark
- ½ Mains plug VDE and UK
- ½ Output voltage/Output current - 5V DC, 2A
