Yealink DECT Deployment Kit

Product Name: Yealink DECT Deployment Kit
Manufacturer: Yealink
Model Number: DECT Deployment Kit

Yealink DECT Deployment Kit
The Yealink DECT IP multi-cell deployment toolkit is an all-inclusive solution to facilitate the deployment and administration of multi-cell DECT IP systems. This toolkit is specifically engineered to streamline the establishment and arrangement of extensive DECT deployments, suitable for settings like office complexes, storage facilities, or corporate surroundings.
Yealink DECT Deployment Kit Key Features:

ï¿½ DECT Manager
ï¿½ Automatic Provisioning
ï¿½ Scalability and Flexibility
ï¿½ Coverage Planning

The DECT IP Multi-Cell Deployment Toolkit offers a comprehensive approach to oversee extensive DECT deployments. It simplifies the process of setting up, configuring, and continuously administering DECT systems, equipping administrators with the necessary resources to enhance coverage, guarantee call quality, and uphold communication network security. It is important to note that the specific features and capabilities of the toolkit may vary based on the version and configuration of the Yealink DECT system being used.

This kit contains:

ï¿½ DTK (Measuring Base Station)
ï¿½ W56H Handset (2)
ï¿½ Battery Cover (2)
ï¿½ Rechargeable Battery (4)
ï¿½ USB Charging Cradle (2)
ï¿½ Power Adapter (2)
ï¿½ Stand
ï¿½ Base Station Clip
ï¿½ Mobile Power Clip
ï¿½ USB-DC Cable
ï¿½ UH33 Headset (2)
ï¿½ Notebook and Pen
ï¿½ Quick Start Guide

Yealink W56H - Technical Specifications
