

10-inch Scheduling Panel (Teams-Certified)

Product Name: 10-inch Scheduling Panel (Teams-Certified)

Manufacturer: Yealink

Model Number: RoomPanel Plus

10-inch Scheduling Panel (Teams-Certified)

The 10-inch Scheduling Panel is a sleek wall-mounted touch screen solution tailored for seamless Microsoft Teams Panels scheduling. With a 10.1-inch touch screen, it integrates with Microsoft Teams for efficient room scheduling, supported by enterprise-grade security and cloud-based management. Its easy installation, Power over Ethernet (PoE) support, and Bluetooth proximity detection ensure hassle-free setup and usability. Additionally, it can be managed remotely through the XiO Cloud service, making it an ideal choice for modern meeting room management.

10-inch Scheduling Panel Key Features:

- Tailored touch screen for Microsoft Teams®; Panels scheduling app.
- Provides a cost-effective superior alternative to consumer tablets.
- 10.1 in. (257 mm) widescreen capacitive touch screen display
- Wi-Fi & network connectivity

Overall, the Crestron TSS-1070-T-LB KIT offers an advanced and secure room scheduling solution, combining ease of use and remote management, making it a valuable addition to any professional environment.
