

## 2N Mini Standard Electronic Doorstrike Series 5

Product Name: 2N Mini Standard Electronic Doorstrike Series 5

Manufacturer: 2N Telecommunications

Model Number: 11202101

### 2N Mini Standard Electronic Doorstrike Series 5

The 2N Mini Electronic Doorstrike Series 5 is a fully reversible and exceptionally robust electronic door strike engineered for easy installation within door frames. This compact device, with a slender 16 mm width, is particularly well-suited for narrow profiles such as aluminium, wood, or PVC. Notably efficient in power consumption, especially when opening standard doors, it comes in different variants, each supplied with a metal cover plate in either a short (130mm) or long (250mm) configuration.

### 2N Mini Electronic Doorstrike Series 5 Key Features

- Fully reversible
- Electronic protection
- Adjustable catch (radial)
- Electromagnetic compatibility
- Corrosion resistance

The mechanical housing of this electronic door strike is equipped with a rotating radial latch, ensuring seamless functionality. Its space-saving design and versatility make it an ideal choice for various door types and frame materials. This model Unlocks when under power. Moreover, it also has a mechanical switch that allows the door to be kept permanently opened.

### 2N Mini Electronic Doorstrike Series 5 - Technical Specifications

#### Technical Parameters

- Max. power input AC: 160 W
- Max. power input DC: 10 W
- Max. load against unauthorised penetration: 4,000 N
- Operating temperature: -15°C to +40°C
- Adjustable catch: yes (radial)
- Reversible: yes
- Electronic protection: yes
- Housing: ZAMAK
- Catch: ZAMAK
- Standards: electromagnetic compatibility pursuant to 2004/108/CE (EN 55014)
- Corrosion resistance pursuant to UNI ISO 9227

#### Monitoring parameters (with microswitch)

- Power: 1 A/125 V AC or 0.5 A/30 V DC
- Operating speed: 1 at 500 mm/second (at the pin)
- Operating frequency (mechanical): 200 operations per minute
- Operating frequency (electric): 30 operations per minute
- Contact resistance: 50 mΩ; maximum
- Insulation resistance: 100 MΩ; minimum (@ 500 V DC)
- Operating temperature: -25°C to 65°C (free of ice)
- Relative humidity: max. 85% (5°C to 35°C)
- Expected lifespan (mechanical): min. 300,000 operations
- Expected lifespan (electric): min. 30,000 operations

**Price: Â£72.80**
