

Fanvil A10 SIP mini Intercom (A10)

Product Name: Fanvil A10 SIP mini Intercom (A10)

Manufacturer: Fanvil

Model Number: A10

Fanvil A10 SIP mini Intercom (A10)

The Fanvil A10 Series SIP mini intercoms are designed for indoor use, offering security, intercom, and broadcasting functionalities. With a sleek and compact design, they feature 3 detachable function buttons that can be customized to meet specific needs. These intercoms deliver a high-quality communication experience with HD audio, IP54-rated waterproof and dustproof protection, and built-in 2.4G & 5G Wi-Fi (A10W/A10W-E). Additionally, they support both wall-mounted (A10/A10W) and standard 86 box embedded (A10-E/A10W-E) installations, making them versatile for various indoor applications.

Fanvil A10 Key Features:

- Features 2 SIP accounts and 3 detachable function buttons
- Built-in 2.4G & 5G Wi-Fi (A10W/A10W-E)
- IP54 waterproof and dustproof
- Support HD audio with codec G.722 and Opus
- Built-in 2W speaker and Acoustic Echo Cancellor (AEC)
- Built-in 1 short circuit input/output interface
- Support PoE power supply
- Support standard 86 box embedded (A10-E/A10W-E) and wall mountable(A10/A10W) installation

The Fanvil A10 intercom is a feature-rich device designed for seamless communication in various environments. It supports 2 SIP accounts and comes with 3 detachable function buttons for flexible operation. Equipped with both 2.4G and 5G Wi-Fi (models A10W/A10W-E), it ensures reliable wireless connectivity. The device is IP54-rated, making it waterproof and dustproof, suitable for challenging conditions. It delivers clear HD audio with support for G.722 and Opus codecs, and its built-in 2W speaker combined with Acoustic Echo Cancellor (AEC) enhances sound quality. Additionally, the A10 features a short circuit input/output interface, PoE power supply compatibility, and offers versatile installation options, supporting both standard 86 box embedded (A10-E/A10W-E) and wall-mountable setups (A10/A10W).
