

Fanvil A320i Android Touch Screen Console IP Phone (A320i)

Product Name: Fanvil A320i Android Touch Screen Console IP Phone (A320i)

Manufacturer: Fanvil

Model Number: A320i

Fanvil A320i Android Touch Screen Console IP Phone (A320i)

The Fanvil A320i is a visual paging console phone designed for industrial customers. It comes with a gooseneck microphone and supports HD hands-free calling. With 112 DSS keys, a 10.1-inch color touchscreen, and built-in Wi-Fi and Bluetooth, the A320i provides an efficient and intelligent communication experience. It features an adjustable built-in camera and an HD PTM handset, ensuring excellent audio and video quality for group conferences. Additionally, the A320i integrates a broadcasting system compatible with the standard SIP protocol, making it an ideal solution for management or command centers with capabilities like video calls, two-way intercom, monitoring, and broadcasting.

Fanvil A320i Key Features:

- 20 SIP lines, 10-party audio conference, 3-party video conference
- Equipped with a PTM handset, standard/PTT handset is optional
- Equipped with a gooseneck microphone for further sound pickup distance
- Integrate a public address software to build a broadcasting system
- Built-in adjustable 8 mega-pixel camera with a privacy cover
- 112 DSS softkeys on 10.1-inch touch screen
- HD audio on speaker and handset
- Support Bluetooth 5.0 and 2.4G/5G Wi-Fi
- Video Codec H.264, support video call
- Dual Gigabit ports, PoE Integrated

The Fanvil A320i is a powerful communication device designed for professional environments, offering 20 SIP lines, a 10-party audio conference, and a 3-party video conference. It is equipped with a PTM handset, with an optional standard or PTT handset available, and a gooseneck microphone that extends sound pickup distance. The A320i integrates public address software for building a robust broadcasting system and features a built-in adjustable 8-megapixel camera with a privacy cover. The device also includes 112 DSS softkeys on a 10.1-inch touchscreen, providing easy access to controls. With HD audio on both the speaker and handset, Bluetooth 5.0, dual-band Wi-Fi (2.4G/5G), video call support via the H.264 codec, and dual Gigabit ports with PoE integration, the A320i delivers exceptional functionality and connectivity for versatile communication needs.

Fanvil A320i Technical Specifications
