

Snom HD331 Hotel/Hospitality Phone (HD331)

Product Name: Snom HD331 Hotel/Hospitality Phone (HD331)

Manufacturer: Snom

Model Number: HD331

Snom HD331 Hotel/Hospitality Phone

The Snom HD331 is a hotel and guest room phone with a modern design that has been specially developed to meet high demands. Its cordless DECT handset ensures maximum freedom of movement, while the elegant, slim design fits perfectly into any ambience.

Snom HD331 Key Features

- Antibacterial housing
- Hospitality functions
- Individually customisable handset Sticker
- Wireless DECT handset
- PoE power supply (exclusive)

Functionality and convenience for hotel guests

- Optimized operation: Speed dial keys allow direct access to hotel facilities such as reception, room service or wellness area.
- Handsfree & call control: Functions such as hands-free, hold and mute offer a comfortable user experience.
- Expandable: If required, up to three additional DECT handsets (Snom HD3) can be paired - ideal for larger suites or business rooms.

Technology & future-proofing

- Network integration: Thanks to PoE power supply and Gigabit Ethernet connection, the Snom HD331 can be seamlessly integrated into a centrally managed, future-proof network infrastructure.
- Central administration: All device settings can be managed efficiently and centrally, minimizing administrative effort.

Hygiene & security

- Antibacterial housing: Reduces bacterial formation and makes cleaning easier - for the highest hygiene standards in hotel operations.
- Visual call display: The large LED call and message display ensures clear visual communication and increases guest comfort.
- Individual labeling options: Perfectly adaptable to the specific requirements of your hotel.

The Snom HD331 combines modern design, intuitive operation and innovative technology - the perfect solution for hotels that value convenience, efficiency and future-proofing. *Handset label not included
