

Product Name: Snom HD1 Hospitality Phone (HD1) Manufacturer: Snom Model Number: HD1

#### Snom HD1 Hospitality Phone

The Snom HD1 is an additional cordless DECT handset designed to expand the capabilities of the Snom HD101 hospitality phone system. It allows for up to three additional handsets to be connected to a single HD101 base, enabling communication across multiple rooms or areas within a hospitality environment. In addition to their own charging cradle, all handsets have the most important features for the comfort of your guest: hands-free calling, muting and call hold are integrated. It also has an antibacterial housing to protect against germs and is easy to clean. The large visual display draws attention to calls and waiting messages. The handsets can be individually labelled on the handsets.

Snom HD1 Key Features

i¿½ Antibacterial housing
i¿½ Additional Cordless DECT handset
i¿½ Color: gunmetal black
i¿½ Large LED call indicator
i¿½ Backlit Keys
i¿½ Hearing-aid compatible (HAC)
