

Snom HD30L Lobby Telephone (HD30L)

Product Name: Snom HD30L Lobby Telephone (HD30L)

Manufacturer: Snom

Model Number: HD30L

Snom HD30L Lobby Telephone (HD30L)

Elegant, corded SIP lobby phone

The Snom HD30L is a modern hotel lobby phone with a clear and slim design. It has no keypad and starts automatic dialling to a specified destination when the handset is lifted. This means that dialling is impossible. With the Snom lobby phone, you can ensure a smooth, intuitive user experience in any hotel lobby, waiting area or corridor. The antibacterial housing protects against germs and is easy to clean. Thanks to the inlay on the receiver shell, the H30L is easy to customise. Table or wall mounting possible. Three additional programmable buttons provide additional functions if required.

DSGVO by Design - The Snom HD30L also sets standards in terms of data protection and security. It was developed in accordance with GDPR requirements and does not store any personal data such as dialled phone numbers. Remote setup and maintenance are carried out exclusively via servers in Germany, ensuring the highest security standards.

Snom HD30L Key Features

- Antibacterial housing
- Hospitality features
- Customisable faceplate
- Power over Ethernet (only)

Snom HD30L Technical Specifications
