Fanvil V66 Pro Prime Business Phone

The Fanvil V66 Pro Prime Business Phone is a colour-screen business phone integrating audio and video, designed for advanced business users who focus on efficient communication. With an original aesthetic design style, V66 Pro features a 7-inch high-definition colour "floating smart screen", ultra-high-definition gorgeous sound quality. It is built with Bluetooth 5.4 and 2.4G/5G dual-band Wi-Fi and supports Wi-Fi 6. Paired with a Bluetooth wireless handle, it provides users with excellent interaction and a comfortable, real-time, interconnected communication experience. The Fanvil V66 Pro Series greatly improves enterprise production efficiency with advanced design, high performance, and a paperless office tool. It is not only a desktop phone, but also an elegant article that goes in the sitting room or office.

V66 Pro Series Fanvil enterprise IP phone is a Prime colour screen IP phone. It inherits many excellent functions of the previous V series traditional phones, such as high-definition voice, headphones and high-performance echo cancellation, full duplex speakers, 1000M Ethernet, QoS, encrypted transmission, automatic configuration, new system, smooth operation, plain interface settings and many other advantages. The V66 Pro is a gigabit network phone that inherits many of the excellent features of the previous V series traditional phones, such as high-definition voice, headphone support, and a full-duplex speaker with high-performance echo cancellation, 100Mbps Ethernet, QoS, encrypted transmission, and automatic configuration; it also boasts a brand-new system, smooth operation, and a flat design interface with many other advantages.

For enterprise users, the V66 Pro enterprise IP phone is a Prime office equipment; while realising environmental protection, they also provide convenient operation. Users can flexibly configure and define the functions of DSS keys, which is space saving. It will be an ideal choice for enterprise users and family users who pursue high quality and high efficiency.

In order to help some interested users better understand the details of the product, the user manual can be used as a reference guide for the use of V66 Pro. This document may not be applicable to the latest version of the software.

Fanvil V66 Pro Prime Key features

- Antibacterial material of the handset and keypad surface effectively inhibits more than 99.5% of bacterial growth

- Adjustable color touch screen (0° to 40°) for different lighting environments.
