

Gigaset Multicharger PRO 6-way charging station for Gigaset Professional handsets

Product Name: Gigaset Multicharger PRO 6-way charging station for Gigaset Professional handsets

Manufacturer: Gigaset

Model Number: Gigaset Multicharger PRO

Gigaset Multicharger PRO

6-way charging station for Gigaset Professional handsets

The Gigaset Multicharger PRO is the practical multi-charger for up to six Gigaset Professional handsets. Compact, flexible and a perfect fit: it can be customised with optional snap-in modules to suit various handset models - including the S700H PRO, R700H PRO, R700H protect PRO and SL800H PRO.

Whether on the desk or on a shelf - thanks to its space-saving design, the Multicharger can be used in almost any office environment. All connected handsets are powered by a single power supply unit and the charging status of each handset is indicated by an LED.

Gigaset Multicharger PRO Key Features:

• 6 charging slots for simultaneous charging of several Gigaset PRO handsets

• Modularly customisable with snap-in inserts for different handset types

• Space-saving design, ideal for use on a table, shelf or storage surface

• LED status display for each charging slot for clear control at a glance

• Only one power supply unit for all charging stations - perfect for structured workstations

• A single power supply unit with EU, UK and US plugs - ideal for international locations

Customisable with optional snap-in modules

You can flexibly adapt the Gigaset Multicharger PRO to the handsets you are using: With optional snap-in module packages (each available in a set of 3), each charging slot can be customised to the respective model. The Multicharger is supplied with 6 dummy covers - these can be easily replaced with the appropriate snap-in modules.

Whether S700H PRO, R700H PRO, R700H protect PRO or SL800H PRO - the right snap-in module is available for each of these Gigaset Professional handsets.
