

Yealink UH48 ANC USB Wired Headset (UH48 Dual UC USB-C/A)

Product Name: Yealink UH48 ANC USB Wired Headset (UH48 Dual UC USB-C/A)

Manufacturer: Yealink

Model Number: UH48 Dual UC USB-C/A

The Yealink UH48-CA-UC is a USB-A corded stereo headset built for professionals who spend long hours on calls, video meetings, and softphone communications. Featuring a cardioid microphone with noise-cancelling capabilities, it picks up your voice cleanly while filtering out background distractions — making it a reliable choice for open-plan offices, home offices, and hybrid work setups. The dual-ear (binaural) design helps you stay focused during calls without surrounding noise breaking your concentration.

Compatible with all major Unified Communications platforms, including Microsoft Teams, Zoom, Cisco Webex, and other softphones, the UH48-CA-UC requires no additional drivers — simply plug in via USB and start talking. The adjustable headband and leatherette ear cushions provide all-day comfort, while the in-line call controller lets you manage calls, mute, and adjust volume without reaching for your screen. It is a solid, no-fuss choice for businesses looking to equip staff with professional-grade audio at a sensible price.
