

Yealink MTower Tabletop Camera (MTower)

Product Name: Yealink MTower Tabletop Camera (MTower)

Manufacturer: Yealink

Model Number: MTower

Yealink MTower Tabletop Camera (MTower)

The Yealink MTower is a triple-eye tabletop camera designed for small to medium meeting rooms. It features three 8MP cameras arranged in a ring – a central telephoto camera and two wide-angle side cameras – providing 360° coverage of all participants around the table. The IntelliVision feature intelligently selects the optimal frontal view of each participant when connected to MTR cameras. A magnetic levitation privacy cover automatically rises and falls with meeting status, simultaneously covering all three cameras. Built-in 6+1 beamforming microphones deliver a 3-metre quality voice pickup range and 6-metre total coverage. Yealink MTower
