

Yealink MShare Screen Sharing Box (MShare)

Product Name: Yealink MShare Screen Sharing Box (MShare)

Manufacturer: Yealink

Model Number: MShare

Yealink MShare Screen Sharing Box

The Yealink MShare is a content sharing unit with both HDMI and Mini-DP input, allowing users to present content directly from their laptop. Using the Yealink wireless presentation pod WPP20, users are able to do wireless presentations for even more flexibility — simply plug in the WPP20 to share content with a single click. The MShare delivers immediate response, smooth and trouble-free presenting with 1080P/30fps Full HD and low-latency content sharing. The MShare presentation solution covers all devices you are using — simply connect and share from your MacBook or Windows laptop. Combining a self-built 2.4G/5GHz Wi-Fi, the Yealink MShare allows you to share your screen via the Yealink WPP20 with no routers or extra network configuration required. Just plug in and with a simple one-click, the content is displayed immediately. Yealink MShare Technical Specifications:
