### Yealink VCH51 Pro USB-C BYOD Hub

The Yealink VCH51 Pro enables wired BYOD (Bring Your Own Device) functionality in meeting rooms equipped with Yealink MVC, MeetingBar, or MeetingBoard systems. Connect a single USB-C cable from the VCH51 Pro to any laptop with a full-featured USB-C port to immediately use the room's audio and video capabilities with any video conferencing application &mdash; no drivers or software installation required. It supports up to 4K/60fps wired content sharing with low latency, and when connected to a PD power adapter, provides up to 65W PD2.0 charging to the connected laptop. The VCH51 Pro itself is powered via PoE (IEEE 802.3af) through its RJ-45 port.
