

Fanvil EM60 Colour-screen Expansion Module (EM60)

Product Name: Fanvil EM60 Colour-screen Expansion Module (EM60)

Manufacturer: Fanvil

Model Number: -

Please Note: The EM60 is an optional accessory and is compatible only with the Fanvil V65, V66, V66 Pro and V67 IP phones. It does not include an IP phone.

Fanvil EM60 Color-screen Expansion Module (EM60)

The Fanvil EM60 Color-screen Expansion Module is a multi-functional accessory designed to provide efficient desktop solutions for staff dealing with heavy and diverse call workloads. Compatible with the Fanvil V65, V66, V66 Pro and V67 IP phones, the EM60 features a large 4.3-inch colour screen offering a rich visual experience. The EM60 supports up to 60 programmable keys across three pages of 20 keys each, with each key equipped with a dual-colour LED indicator. When connected to a compatible phone, it enables functions such as speed dialling, call forwarding, call transfer, call parking, and BLF status display. Three independent illuminated control keys allow for fast page switching. Designed for high-frequency call scenarios, the EM60 helps users handle large numbers of concurrent incoming calls with ease, significantly enhancing the user experience of compatible IP phones and improving overall office efficiency. The module connects via USB for reliable data transmission and fast data refresh, and includes an adjustable desktop stand with two angle options (40° and 45°). Up to 4 expansion units can be cascaded with the V65, V66 and V66 Pro, while the V67 supports cascading up to 5 expansion units through the USB interface. Fanvil EM60 Technical Specifications:

Generic

- 4.3-inch (480x272) colour screen
- Colour icons for rich visual experience
- 20 physical DSS keys on each page with dual-colour LED
- 3 independent control keys with illuminated LED for fast page switching; three page views possible
