2N Access Commander Box 2.0 (UK Power Lead) Access Control PC (1120120GB)

The 2N Access Commander Box 2.0 is a powerful minicomputer that comes with pre-installed software to manage your access control system. There's no need for your own hardware or an existing server – just unbox it, plug it in, and start managing. The compact design allows easy installation even in environments with limited space, and the fanless design guarantees quiet, reliable operation. User-friendly web-based configuration makes it straightforward to manage your access control system. The 2N Access Commander Box 2.0 also includes a basic licence for up to 5 devices, so administrators can start using it immediately in smaller installations. For large-scale installations, one of the paid licences can be ordered and uploaded to the system.
