

2N Induction Loop for IP Force 2.0 (9151321)

Product Name: 2N Induction Loop for IP Force 2.0 (9151321)

Manufacturer: 2N Telecommunications

Model Number: 9151321

2N Induction Loop for IP Force 2.0 (9151321)

The 2N 9151321 is an internal induction loop module designed for installation inside the 2N IP Force 2.0 intercom. It transfers audio from the intercom to hearing aid users, enabling more inclusive communication at access points. This accessory is required to allow the intercom to meet the IEC 60118-4 standard, which is often required in public projects, and also helps meet the standards of the European Accessibility Act. The induction loop is installed inside the intercom housing, which protects it from rain and vandalism and ensures reliable, inclusive communication. 2N 9151321 Technical Specifications:

Mechanical Properties

½ Working temperature: -30°C to $+55^{\circ}\text{C}$

½ Storing temperature: -40°C to $+70^{\circ}\text{C}$

½ Working relative humidity: 10%–95% (non-condensing)

Compliance

½ Supports IEC 60118-4 standard

½ Aids European Accessibility Act compliance

Warranty

½ 5-year warranty

Package Contents

½ 1 x 2N 9151321 Induction Loop module
