

Fanvil i501 SIP Indoor Station (i501)

Product Name: Fanvil i501 SIP Indoor Station (i501)

Manufacturer: Fanvil

Model Number: i501

Fanvil i501 SIP Indoor Station (i501)

The Fanvil i501 is a SIP indoor station designed for homes, offices, and hotels, featuring a magnetic handset and one-touch remote door unlocking for convenient visitor access. It supports 2 SIP lines and a short-circuit input, enabling clear audio communication and reliable access control. The i501 supports both PoE (802.3af) and DC power supply, and delivers high-definition audio via wideband codecs G.722 and Opus, with a built-in 1W speaker and Acoustic Echo Cancellation (AEC) for high-quality two-way hands-free calling.

Specifications:

Hardware

• Panel type: Community, Hotel, Villa

• Screen: none

• Body: ABS

• Speaker: 1W

• Network interface: 10/100 Mbps adaptive

• Interface: 1 x short-circuit input

• Installation: wall-mounted

• Dimensions (H x W x D): 195 x 181 x 30 mm

Power

• Power supply: DC 5V / 1A

• PoE: IEEE 802.3af

• Power consumption (PoE): 1.44W~2.7W

Audio

• Narrowband codecs: G.711A/U, G.723.1, G.726-16/24/32/40, G.729AB, iLBC

• Broadband codecs: G.722, OPUS

• Full-duplex hands-free calling with Acoustic Echo Cancellation (AEC)

• DTMF: in-band, out-of-band (RFC2833), SIP Info

Protocol & Network

• Supported protocols: SIP 2.0 over UDP/TCP/TLS

• SIP lines: 2

Features

• Do Not Disturb (DND): supported, user-defined time

• Customisable incoming call ringtones

• Remote door unlocking

Environmental

• Working temperature: 0°C to 50°C

• Storage temperature: -20°C to 50°C

• Working humidity: 10%~90%
