

pbxnsip Hunt Group (PBX-HG)

Product Name: pbxnsip Hunt Group (PBX-HG)

Manufacturer: pbxnsip

Model Number: -

Availability: In Stock

A hunt groups forks a call sequential and parallel in order to locate an extension that can pick up an incoming call. If extension picks the call up, the hunt group will redirect the call to another account or an external number.

The typical use case is a central number that is being called in a company with the receptionist, secretaries and assistants on the different stages of the hunt group.

*What is an Account?

pbxnsip Hunt Group (PBX-HG)

We are using the term account to be any of the following: Auto Attendant, Conference, Hunt Group, Agent Group, Calling Card, Paging, Service Flag, and IVR Node. The customer can choose to configure the PBXs accounts so as to meet their needs. You cannot create accounts beyond the number you are licensed for.

****What is an Extension?**

An extension is a special account type that has a phone and a mailbox associated with it. An extension can have multiple phones connected to it with the same extension number.

*The pbxnsip components above can be added to the base bundles found on pbxnsip Software IP PBX Section
