2N IP Vario 1 Button + cam Door Entry Panel (9137111CU)

The 2N® IP Vario 9137111CU door communicator was successfully certified in May 2010 for compatibility with the products of Cisco Systems, Inc.

It is ideal for any door entry communication environment, the virtual office and all IP video communications for business or residential users. What is 2N Helios IP (video door phone)? The 2N IP (video door phone) is an advance IP video door phone based on SIP standard, competitively priced and easy to use. The IP combines professional design and technology features with excellent picture quality, ease of deployment and broad interoperability with 3rd party SIP products. The IP Helios is the first H.264 IP video door phone that supports real-time high-quality video. 2N solution is unique to the market that includes unique features with easy to use and setup.
