Atcom AX210X Dual FXO Module

Product Name: Atcom AX210X Dual FXO Module
Manufacturer: Atcom
Model Number: AX210X

Atcom AX210X Dual FXO Module
The Atcom AX210X is a dual port FXO module which allows ATCOM Asterisk cards or IP-PBX to terminate 2 analog telephone lines (POTS). Users can activate additional ports at any time with more AX210X modules. The AX210X module passes all the call features. Line parameters can be adjusted in Asterisk to meet different countries standards.Supported Models
