

Plantronics M175 Headset

Product Name: Plantronics M175 Headset

Manufacturer: -

Model Number: M175

Please Note: The Plantronics M175 Headset has been discontinued. For an alternative, please see the Plantronics VoIP Headset range.

Plantronics M175 Headset

The Plantronics M175 uses a 2.5mm jack and is compatible with the Gigaset VoIP Phone range, the snom M3, and snom M9 phones.

The Plantronics M175 headset offers hands-free convenience. Its convertible design can be worn with a headband or an earloop on either ear, depending on whether you want greater stability or convenient small size. The pivoting noise-canceling microphone keeps your voice crystal clear, even in noisy environments.

With one-touch volume and mute controls and a comfortable, durable, and lightweight design, the headset also works with headset-ready cordless phones and has a microphone volume switch so you can be heard clearly. Backed by an unconditional one-year warranty and industry-leading customer support. Buy an M175 and free your hands today.
