

ZyXEL Prestige 2002L ATA Lifeline

Product Name: ZyXEL Prestige 2002L ATA Lifeline

Manufacturer: -

Model Number: P2002L

Availability: Discontinued Please note that the ZyXel 2002L has been discontinued. We recommend the Patton M-ATA as a good alternative.

The ZyXEL Prestige 2002L 2 Port VoIP ATA (Analog Telephone Adaptor) is an easy to use and install, low cost way for users to make/receive low cost phone calls through the internet using normal BT phones via a SIP VoIP service provider without using a PC.

Designed for home and telecommuters who wish to make/receive low cost phone calls through the internet using normal BT phones via a SIP VoIP service provider.

Main Features

- Make/receive low cost VoIP phone calls through the internet.
- Industry compatible SIP compatible.
- Compatible with all other Internet Connected Routers.
- Telephone lifeline if broadband line fails.

Features

- Easy to use and easy to install using a web browser.
- Telephone lifeline if broadband line fails for the 2002L.
- Industry compatible SIP (Session Initiation Protocol, RFC 3261) for maximum compatibility with service providers and other VoIP devices.
- 2 x VoIP Telephone ports and 2 x 10/100 Ethernet ports.
- Great sound quality for the 2002L.
- Compatible with all other Internet Connected Routers.
- Can be centrally managed using Telnet management, and TFTP Auto-Provisioning.
- Configure more than one SIP phone number, each number can be assigned to one or both phone ports. If one phone is used, a user can still make/receive another call.
- 2 Year warranty for the 2002L.
