Konftel 300M 3G GSM Conferencing Phone

Product Name: Konftel 300M 3G GSM Conferencing Phone
Manufacturer: Konftel
Model Number: 910101091

Konftel 300M 3G GSM Conferencing Phone
The Konftel 300M Conference Phone is perfect for companies that have chosen a mobile communications solution. It is intended for use in mobile networks, with all their flexible benefits. You also get an uncompromising conference phone with smart functions and Konftel’s patented audio technology OmniSound® 2.0, ensuring crystal-clear sound on all your conference calls.
Konftel 300M Key Features

ï¿½ Long battery life (up to 30 hours of talk time)
ï¿½ Unique mobile conference phone
ï¿½ USB for collaboration
ï¿½ Meeting size: up to 20 people
ï¿½ OmniSound®
ï¿½ Support for HD Voice on 3G network

Recorder Capabilities The Konftel 300M supports recording to an SD memory card – perfect for interviews, documentation or simply as a reminder of important calls and meetings. Can also be used as a dictaphone.
Multi-Party Calls and Conference Guide Your mobile operator's network determines the number of participants in multi-party calls, but normally up to six people can be connected. With the handy conference guide, which stores call groups, you can call all the parties simultaneously at just the touch of a button.
USB Connection for VoIP Calls and UC Environments The Konftel 300M is compatible with most UC environments and can be connected to a computer using the accompanying USB cable. Use Line Mode to make it easy to switch between and combine mobile and USB connections.
Expansion Microphones for Larger Meetings The Konftel 300M is equipped with Konftel’s patented audio technology, OmniSound® 2.0, which gives crystal-clear sound. Supplement with expansion microphones for larger meetings to expand the reception area from 30 m to more than double that.
