

## Pirelli Discus DualPhone DP L10

Product Name: Pirelli Discus DualPhone DP L10

Manufacturer: Pirelli

Model Number: DPL10-B

Availability: Discontinued

For an alternative, please look at the Hitachi DMP-330 or the Pirelli DP-SW20.

Pirelli's DualPhone unites Wi-Fi and VoIP technology in one handset. Now you can deliver the convenience of a mobile and a broadband cordless in ONE phone.

The Pirelli DiscusTM DualPhone DP-L10 is a dual-mode GSM/SIP Wi-Fi handset, combining tri-band capabilities with the support of SIP VoIP via an integrated WLAN 802.11g interface. The DualPhone works like a standard cell phone - any GSM SIM card will work and cell phone features such as SMS, MMS, e-mail, and Internet browsing are easily enabled.

When at home or in office, the DualPhone automatically switches to the Wi-Fi-enabled fixed connection; making the same mobile services available indoors at a higher speed and a lower cost to you and your customers. The DiscusTM DualPhone is developed on industry-standard protocols such as 3GPP, 802.11 and SIP guaranteeing interoperability. It also features Pirelli's enhanced software that makes dual-mode technology a viable commercial solution for you.

Our software also supports seamless roaming, zero-touch registration and remote manageability. The DualPhone DP-L10 is designed and qualified to operate in a multi-vendor, standards-based environment. Pirelli's SIP Wi-Fi service-oriented portfolio includes:

- ½ Pirelli's AWR WLAN extender, a self-configuring Wi-Fi repeater supporting extended indoor coverage and seamless WLAN roaming
- ½ Pirelli's Multiplay Access Gateways, delivering dual-mode phone QoS and service provisioning
- ½ Pirelli's PMP Management Platform, a TR-069 remote management system which supports the provisioning, diagnostics and software upgrades for the entire
- ½ Fixed Mobile Convergence suite (DualPhone, AWR WLAN Extender and Multiplay Access Gateways)

### Feature Benefits

- ½ Dual Mode Handset (Wi-Fi/GSM)
- ½ GSM tri-band (900/1800/1900MHz)
- ½ Wi-Fi 802.11b/g
- ½ SIP
- ½ SMS, MMS, WAP, E-mail
- ½ OTAP and Remote Management
