

Valcom VIP-D640-DS IP PoE 4.0"/6 Digit Digital Clocks (Double Sided)

Product Name: Valcom VIP-D640-DS IP PoE 4.0"/6 Digit Digital Clocks (Double Sided)

Manufacturer: -

Model Number: VIP-D640DS

Availability: In Stock

Valcom VIP-D640-DS IP PoE 4.0"/6 Digit Digital Clocks (Double Sided)

Keeping time accurate and consistent throughout a large facility is easy with Valcom's new IP PoE Clocks - simply add a clock to any location on the network via RJ-45 connection. Power to the clock is provided by Power-Over-Ethernet (PoE) eliminating the need to add costly power outlets. Installation is easy and inexpensive and allows quick and easy relocation of clocks throughout a facility.

T¿½ Consistent and accurate time across an organization maintains efficiency and smooth company operation.

 \ddot{i} Manufacturing Facilities – Synchronized time promotes adherence to schedules keeping the entire team consistently meeting productivity goals

T¿½ Healthcare - Daily healthcare requires synchronized time schedules which are critical for patient care and timely delivery of medications.

T¿½ Schools & Driversities - Accurate timekeeping is crucial in transitioning students from one class to the next. Since access control/security systems lock at certain times all across a campus, synchronized campus-wide timing becomes critical.

Valcom IP PoE Clock Features:

12.1/2 Set Automatically by NTP (Network Time Protocol)

� 10/100BaseT Ethernet Compatible

� DHCP or Static IP Addressable

� Power over Ethernet (IEEE 802.3af)

� No Master Clock Required

Simple User Control for:

ï¿⅓ IP Configuration

ï¿⅓ NTP Server Address

า๊ะ่½ Time Zone Offset From UTC, Daylight Savings Time

 $\ddot{\imath}$ نْ Time Display, 12/24 Hour Format

ï¿⅓ Status Reporting

� Easily Up-Load Firmware Upgrades

ï¿⅓ Industrial Grade Metal Housings
