Manufacturer: -
Model Number: VIP-402-IC

Availability: In stock
Valcom VIP-402-IC Ceiling Speaker

The Valcom VIP-402-IC Ceiling Speaker is a 23.75" x 23.75" one-way ceiling speaker that you lay into a drop tile ceiling grid with a standard 2ft x 2ft tile array. This model is meant for the InformaCast IP paging software.
The Valcom VIP-402 allows equal distribution of sound throughout a large open area without having to hard wire in ceiling speakers. When a drop tile ceiling is being used, the VIP-402 fits into a standard 2' x 2' tile area, allowing unobtrusive audio and easy wiring above the grid assembly. A single RJ45 PoE connection allows you to transmit audio via SIP to the speaker with no additional power requirements.
