Manufacturer: -

Model Number: VIP-422-IC

Availability: In stock

Valcom VIP-422-IC Ceiling Speaker

The Valcom VIP-422-IC Ceiling Speaker is a lay-in IP ceiling speaker meant to be laid into a drop tile ceiling grid with a standard 2 ft x 2 ft array. This model features 2-way communication and is meant for use with InformaCast IP Paging software. The VIP-421, VIP-422, VIP-422-EC Lay-In Talkback IP Ceiling Speakers enable handsfree talkback access to a single location over an IP-based LAN/WAN. This allows handsfree communication anywhere on the network. The speaker levels are adjusted electrically via software. A call switch input is provided for call in initiation. Power is provided to the unit via a Power over Ethernet (PoE) switch meeting the 802.3af specification. The lay-in ceiling speaker grille is made of steel with a white baked enamel finish. The VIP-421 replaces $\frac{1}{2}$ of a 2' x 2' ceiling tile. The VIP-422 replaces a 2' x 2' ceiling tile. The VIP-422-EC replaces a 600mm x 600mm ceiling tile.

Valcom VIP-422-IC Features:

• Two-Way communication

• PoE (802.3af) - No Local Power Required

• High-Efficiency 8" (203mm) Speakers

• Durable Electrostatic Powder Coat Finish on Metal Surfaces
