Please Note: The Digium D50 has been discontinued. For an alternative, we recommended the Digium D65 IP Phone

Digium D50 VoIP Phone

Please Note: Digium IP Phones are PoE (Powered-Over-Ethernet) and do not include a mains Power Supply. If mains power is required, this can be added via the drop down menu above.

The Digium D50 is an IP Phone aimed at mid-level employees and has 4 line keys and 10 rapid dial buttons. The Digium D50 IP Phone is designed for use with both Asterisk and Switchvox. The D50 has multiple line appearances, contextual soft keys and advanced applications, meaning you can access the information you need instantly. The Digium D50 includes unprecedented HDVoice and plug-and-play deployment at a price that will fall under any budget.

Digium phones contain integrated applications that come standard and put vital information at your fingertips. These include contacts, phone status, voicemail, call log, user presence, parking and queue metrics, the Digium phones provide simple, intuitive access to a wealth of information, which saves users valuable time. The Digium D50 with Icon Keys is a variation of the D50 that has identical specs, but with the text keys replaced with icon keys.
