Straight forward touchscreen navigation and relaxed conversation Making calls and using the handset is a delight on the Gigaset SL910H – Gigaset's first touchscreen handset. The high-quality metal handset and charger create a sophisticated, polished look and feel. Reading and navigating is made easy with the generous 3.2" capacitive touchscreen. You can access a broad array of calling functions speedily using all of the convenient features listed within the user interface. The Gigaset SL910H has a talk time of up to 14 hours and a standby time of up to 200 hours letting you place and receive calls for three days without recharging. Convenience of full-touch user interface Home telephony has entered the future with the Gigaset SL910H. Its user interface offers a spectrum of convenient functions. Easily find the tools you need with three different home screens. The touchscreen keypad for placing calls is

## Gigaset SL910H Touchscreen IP DECT Phone

featured in the dial centre. Track placed, received and missed calls in the message centre. The customizable info centre allows you to organise all the information you need on a daily basis with a calendar, clock, directory and much more. The scrollable address book holds up to 500 vCard entries, each with up to eight phone numbers. Incoming callers are immediately recognizable with picture caller ID1. All of these functions, quickly accessible on the capacitive touchscreen, make the Gigaset SL910H the perfect handset for your home telephony needs.

Configurable to your preferences and necessities The extremely accommodating Gigaset SL910H can be customized in a variety of ways to match your individual needs. Calling devices are not only about functionality in the modern world. They should also reflect the unique character of its user. The Gigaset SL910H allows you to customize your telephony world. Create a screensaver photo show by downloading picture files to display on the full-touch user interface when the handset is in idle mode. Customize your ringtone with personal downloads of sound files on this innovative handset. The alarm function alerts you to appointments, the calendar function records important dates and times, and the room-monitoring function operates as a useful baby monitor. Functions enabled by Bluetooth® and mini-USB capabilities The Gigaset SL910H will save you time and give you calling comfort with its built-in Bluetooth® technology. Via mini-USB or Bluetooth®, your Outlook contacts can quickly be synchronized with the Gigaset SL910H. Other downloads such as music files for ringtones, or pictures for caller ID1 and the screensaver picture show, are also possible. You can also install a wireless Bluetooth® headset with the Gigaset SL910H for hands-free multitasking while you talk.
