Please Note: This product has been discontinued.

snom Microsoft Lync UC edition for Microsoft OCS

The snom UC Edition firmware combines the advantages of open standards-based IP telephony by using the SIP protocol to seamlessly integrate with Microsoft & reg; Office Communications Server 2007 R2, Lync and any other SIP based IP PBX inparallel.

Currently the snom 300, snom 370 snom 821 and snom 870 UC editions are now officially qualified for Microsoft Lync™ 2010 and Microsoft® Office Communications Server 2007 R2 client. They also work on Lync with the same featureset as Lync is backward compatible to it and supports existing 2007 R2 clients.

snom Microsoft Lync IP Phones combine the advantages of open standards-based IP telephony by using the SIP protocol to seamlessly integrate with Microsoft® Office Communications Server 2007 R2, Lync and any other SIP based IP PBX in parallel. Features

 $i_{\dot{c}}$  The snom Microsoft Lync IP Phones, snom UC edition phones can operate standalone to make and receive calls.

ï¿1/2 Can work with or without a PC.

 $\ddot{i}_{\ell}$  Register up to twelve (four for snom300) OCS/Lync or standard SIP based different accounts/lines on the same phone.

� Dual-SIP-stack provides soft migration into Lync or auto failover onto a SIP based switch/PBX.

ï¿1/2 Wall mountable

 $i_{\dot{c}}i_{2}$  Supports auto provisioning via HTTP, HTTPS, and TFTP and remote management via TR-069

ï¿1/2 Publishing of the device presence status, like "in a call, DND, etc"

ï¿1/2 Additionally includes full standard feature set

The snom 300 UC edition with snom Lync firmware is the first open-SIP-based IP desktop phone to natively register to the Microsoft® Office Communications Server 2007 R2 and Microsoft Lync. It has the best cost-performance ratio compared to all other compatible devices for Microsoft® Lync Server 2010.

The Snom Microsoft Lync IP Phones support PBX functionalities, access to calendar and contacts, rich conferencing, extended functionalities when connected to the PC, and integrated security and manageability. Built from the ground up for Lync, these phones come in different models designed to meet specific business needs, including a rich information worker experience, a basic desk phone, common area phone, or conference room phone. snom Lync IP Phones Comparison
