

Product Name: Snom 370 VoIP Phone

Manufacturer: -

Model Number: SNOM370

Please Note: The Snom 370 VoIP Phone has been discontinued. Please see the replacement model the Snom 720 IP VoIP Phone

snom 370 IP Phone

Please Note: The snom 370 IP Phones do not include a mains Power Supply. If mains power is required, this can be added via the drop down menu above.

The snom 370 is an ideal solution for home offices, private users, ISP applications or SMEs. It is designed for business users who need immediate access to all of their important information. The snom 370 IP Phone offers users an extended presentation of call lists, address books and caller information. The caller information can be customized using XML to depict the information the user wishes to be displayed.

snom 370 IP Phone Key Features

آذًا Tiltable high-definition graphical display (240 x 128 pixels)
